

ENVIRONMENTAL POLICY STATEMENT

Doc: PO-004

Issue: Rev3

Date: 10.11.15

Page 1 of 1

Power Projects International is a privately owned, medium size Australian company, operating in the areas of heavy industrial maintenance and power station overhaul, upgrade and construction.

Commitment:

- Identify PPI's and our stakeholders' environmental context.
- Using a risk based approach address PPI's and our stakeholders contextual issues within PPI's integrated environmental management system.
- To meet our identified environmental obligations for all interested parties in accordance with Environmental Acts and Legislation, relevant legal and contractual requirements, including Local Government and to which PPI subscribes
- To comply with the international standard *AS/NZS ISO 14001:2015 – Environmental Management Systems*
- To establish and maintain objectives and targets consistent to the identified contextual issues with the aim of reducing negative environmental impacts and achieving continual improvement
- To prevent pollution and reduce the release of emissions from our workplace
- To ensure that environmental management principles are included in all planning activities
- To monitor, inspect, measure and report the effectiveness of our environmental program objectives and targets.

Strategies and Objectives:

- To minimise waste production and disposal
- To minimise use and disposal of hazardous substances
- To minimise industrial noise and emissions
- To reduce the use of non-renewable resources, and to increase recycling
- To reduce consumption of resources, water and energy
- To understand and implement aspect identification and impact assessment practices, including emergency and rehabilitation measures
- To ensure incidents are promptly investigated and causes are corrected and prevented from reoccurring
- To provide information and training to our people in environmental issues awareness and work procedures
- To act with due regard for the requirements and expectations of our clients, neighbours and community, stakeholders, insurers, and industry associations
- To ensure our suppliers and subcontractors comply with relevant requirements
- To more effectively gather feedback and information to improve our Management System.
